

Secure Your Boat the Kiwi Way with Aerofast Tiedowns

Proudly New Zealand Made – Tough Tested for NZ Conditions

Aerofast has been crafting reliable load restraint solutions for over 45 years right here in New Zealand. Designed to handle salt spray, UV exposure, and rough roads, these marine-grade ratchet tiedowns protect your boat and trailer while keeping everything locked down safely. All meet Australian & New Zealand safety standards.

Choose the perfect fit for your boat size:

- **AERTRT – Transom Hook Ratchet Tiedowns (Pair)**
25mm x 1.0m | 500kg break strength
Compact stern security with PVC-coated transom hook & S-hook, rubber-handled ratchet + protective pad. Ideal for small boats.

- **AERTRHH2150 – Premium Transom Ratchet Tiedowns (Pair)**
25mm x 1.5m | 800kg break strength
NZ-made heavy-duty transom solution: rubber-handled ratchet, hull-protecting pad, PVC-coated S-hooks. Perfect for small to medium boats.

- **AEROC2 – Medium Duty Overcentre Ratchet Tiedown**
25mm x 4.5m | 700kg break strength
Gunwale/overcentre design with rubber-coated ratchet, protective pad, PVC-coated S-hooks. Great for medium-sized boats.

- **AEROC3 – Heavy Duty Overcentre Ratchet Tiedown**
50mm x 5.5m | 1400kg break strength
Commercial-grade power: extra-short ratchet, 50mm webbing, PVC-coated S-hooks. Built for larger boats and maximum stability.

Why Aerofast at PROMT Parts?

- UV & water-resistant polypropylene webbing for long marine life
- Protective coatings and pads to prevent scratches and hull damage
- Easy, controlled ratchet tensioning
- Reliable NZ engineering you can trust on every trip to the ramp
