

## OUTBOARD TRIM & TILT SUPPORT

Ensure safe and secure transport of your outboard (up to 300hp) with the Panther Green Tilt & Trim Support—engineered to protect your motor and trailer during road travel.

Designed for use on single ram tilt/trim systems, this heavy-duty support locks your outboard in the raised position, preventing it from dropping and reducing the risk of costly damage to your skeg or lower unit.

Part # MT-552195G

### Key Benefits

- **Protects Your Outboard:** Prevents the engine from lowering during transport, avoiding ground contact and potential damage
- **Improved Road Clearance:** Maintains a safe gap between your outboard leg and the road when towing
- **Reduces Stress on Trim System:** Helps absorb shock and vibration, extending the life of your tilt/trim components
- **Ideal for Modern Trailers:** Perfect for fibreglass boats where traditional transom supports are no longer practical
- **Wide Compatibility:** Suitable for most outboards from 50HP to 300HP

### Features

- **Secure Locking Design:** Four internal locking tabs clip firmly over the tilt ram
- **Enhanced Grip:** Precision-machined ends provide superior hold during transport
- **Durable Polyurethane Construction:**
  - Weather-resistant and long-lasting
  - Maintains shape under load better than softer EPDM rubber alternatives
- **Customisable Fit:** Can be trimmed to suit specific applications
- **Proven Strength:** Tested for use with up to 300HP 4-stroke outboards

### Specifications

- **Dimensions:** 120mm (L) x 70mm (W) x 55mm (H)
- **Shaft Diameter:** 19mm
- **Material:** Polyurethane (90A hardness)
- **Colour:** Green
