# 115-Amp High-Output Alternator Kit

## For Mercury 3.4L V6 & 4.6L V8 CMS Engines

The high-output alternator kit is the perfect solution for boaters who need greater battery-charging capacity for heavy-drawing onboard electronics and accessories. Each kit includes an easy-to-install drop-in alternator that raises output from 85 to 115 amps along with the required cable assembly, which includes a 150-amp fuse and 4-gauge battery cable.

### HIGH-OUTPUT ALTERNATOR KIT (8M0176702)

115-amp alternator

Cable assembly: 150-amp fuse and 4-gauge battery cable

Installation instructions

### COMPATIBLE ENGINES

Mercury Marine® 3.4L V6 and 4.6L V8 FourStroke, Pro XS® and SeaPro® engines with Conventional MidSections
